

# Alianza Logistics

## The new Logistics

We are a logistics solutions provider committed to offering our customers all the flexibility in the **transport of goods by land and sea**. Our reason for being is based on a clear focus on excellence, backed by the motivation, training and involvement of our team.

We offer national **road transport, import, export, groupage and intra-community transport** of dry and refrigerated cargo from the Mediterranean arch to Europe.

In Alianza Logistics we have our own fleet of **100 trailers**, and belonging as shareholders to Grupo Valiente, with a fleet of **200 complete units**, we strengthen our commitment to our clients, growing in fleet and flexibility in all our services.

On the other hand, our marine transport services cover the entire process of shipping goods internationally, providing efficient and safe logistics solutions.

### MISSION

Concentrate on a single **point the need** in logistics with **flexible service**, therefore generating trust.

### VISION

Our **commitment** is to improve the logistics sector, by becoming a **benchmark brand**. Dedicating our efforts to **creativity and innovation**, to the respect for our people and their value.

### VALUES

We are guided by **respect, honesty, commitment, and teamwork**. We believe in business development under ethical responsibility

# Corporate social responsibility

## Sustainable logistics

At **Alianza Logistics Group** we seek to integrate sustainability into each of the projects we carry out with the aim of promoting changes in our sector towards more responsible practices, generating shared value for society.

Our **strategy as a group of companies is aligned with the ten universal Principles proposed by the Global Compact** and in turn contributes directly and indirectly to the Sustainable Development Goals promoted by the United Nations in the framework of the 2030 Agenda.

Our objective is to implement actions that, in line with our **sustainability strategy**, contribute to the development and well-being of people, the environment and society in general.

# Sea Transport

## Extensive coverage around the world

Our **shipping services** cover the entire international freight forwarding process. We offer different options to adapt to the **specific needs** of each client, guaranteeing a smooth and efficient logistics experience.

Both export and import are part of the shipping services we offer to and from any port in Spain, with a special focus on **Barcelona, Valencia, Algeciras** and **Bilbao**. We are committed to offering comprehensive and reliable logistics solutions in these important locations.

In addition, thanks to our membership in the world's largest global network, **WCA Network**, we also manage operations to and from any port in the world. Our triangular logistics department is responsible for efficiently coordinating these international operations, providing our clients with extensive global coverage.
