

alianza
Logistics

The logo for Alianza Logistics consists of the word "alianza" in a bold, dark blue, lowercase sans-serif font. Below it, the word "Logistics" is written in a similar bold, dark blue, lowercase sans-serif font. To the right of the text, there is a graphic element: a thick, light green circular arc that is open at the top. A small, realistic globe of the Earth is positioned at the top right end of this arc, appearing to sit on the curve.

Alianza Logistics

The new logistics

We are a logistics solutions provider committed to offering maximum flexibility in the **transport of land goods, air and maritime transport** to our clients. Our reason for being is based on a clear orientation towards excellence, supported by motivation, training and involvement of our human team.

We offer **national road transport, import, export, groupage and intra-community transport** of dry and refrigerated cargo from any point in Europe to any destination within Europe.

Furthermore, our **maritime transport** services cover the entire shipping process of **merchandise internationally**, providing efficient and safe logistics solutions. We offer fast and safe **air transportation** (24 to 72 hours), due to our strategic agreements, IATA accreditation and experienced staff.

MISSION

Concentrate the logistics need in a single point with a **flexible approach** and **generating trust**.

VISION

Our commitment is to improve the logistics sector, becoming a **brand reference**, dedicating our efforts to **creativity and innovation, to value and respect for our people**.

VALUES

Our values focus on **people, service and results**. We support well-being, we promote cooperation and commit to clear goals, building relationships based on mutual trust.

- **Secured parking** to guarantee the safety of the vehicles.
- Surveillance of the Facilities **24 Hours, 7 days a week.**
- **High quality** padlocks and seals.

Loyal Carriers: Strategic Alliance

Synergies to guarantee an efficient and quality service

24HRS/365 YEAR

Our commitment is to provide personalized care 24 hours a day, 365 days a year.

CONTINGENCIES

Ability to triple the volume at peak times, in the face of significant increases of demand.

GPS POSITIONED

Tracking services and real time monitoring guaranteeing greater safety and efficiency.

We establish strategic alliances with trusted collaborators, **offering tailored solutions, with the ability to easily adapt to any need for land transportation.**

We have a fleet of carriers **prepared to deal with contingencies and emergencies**, providing coverage in both national and international scopes, with no limit on the number of loads.

Our system of **positioned GPS vehicles allows us to optimize routes, reduce delivery times and minimize risks of cargo loss or theft. In this way**, we ensure the peace of mind of our clients and the integrity of their products throughout the logistics process.

Cleaner and more efficient freight transportation

We prioritize sustainability in our logistics operations.

At Alianza Logistics, we are committed to innovation and sustainability in our truck structure. We use **biodiesel, electric vehicles, gas trucks and duo trailers** to optimize our logistics operations and reduce our ecological footprint.

In addition, part of our fleet complies with Euro 6 emissions standards, thus guaranteeing our commitment to the environment.

Logistics hub in Torija

State-of-the-art infrastructure

AMPLE SPACES

With an area of **16,000 square metres**, this hub boasts a 1,200-square-metre warehouse, plus parking areas and spaces for vehicle and trailer maintenance.

STORAGE FACILITIES

The new **1,200-square-metre** warehouse guarantees the safe and efficient storage of up to 200 pallets of dry goods. Thanks to this, these facilities can store both goods and vehicles.

MAINTENANCE AND WORKSHOP SERVICES

In addition to the **storage** and **logistics areas**, the new hub will also have spaces dedicated to vehicle repair and maintenance. We guarantee the optimal condition of all lorries.

Our main markets

Europe and our goods

- We operate mainly in **Germany, Italy, the United Kingdom, France, Belgium, and the Netherlands**. What's more, we have international flows that cover the rest of Europe such as the Eastern European countries, ensuring far-reaching and efficient coverage.
- We offer a high-volume ground transport service, managing more than **90,000 cases** per year on a European level. This capacity makes us as a benchmark in international logistics.
- We transport a huge variety of **goods, including food, beverages, parcels, medicines, industrial products, and ADR goods**. Our activity is endorsed by rigorous quality standards, such as IFS certification for food logistics and TAPA certification.

New service in Morocco

Regarding land transport in **Morocco**, our network of carriers specialised in the region provide the following services:

- **Import:** Transport specialised in fresh products, mainly fruits and vegetables. Fleet composed of 80% reefer trucks, guaranteeing the cold chain throughout the journey.
- **Export:** Transport of all types of palletised goods, whether dry or temperature controlled. Our service is tailored to the specific needs of each customer and load.
- **Expert customs management:** Management of customs clearance in both Morocco and Spain.

Maritime and Air Transport

Great coverage all over the world

Our maritime and air transport services cover the entire international freight forwarding process. We offer different service options, including export, import, storage and handling, and customs services.

As for maritime transport, we carry out both export and import from Spain to more than 190 countries on the 5 continents. We also have a department specialized in triangular operations. Among our services we highlight:

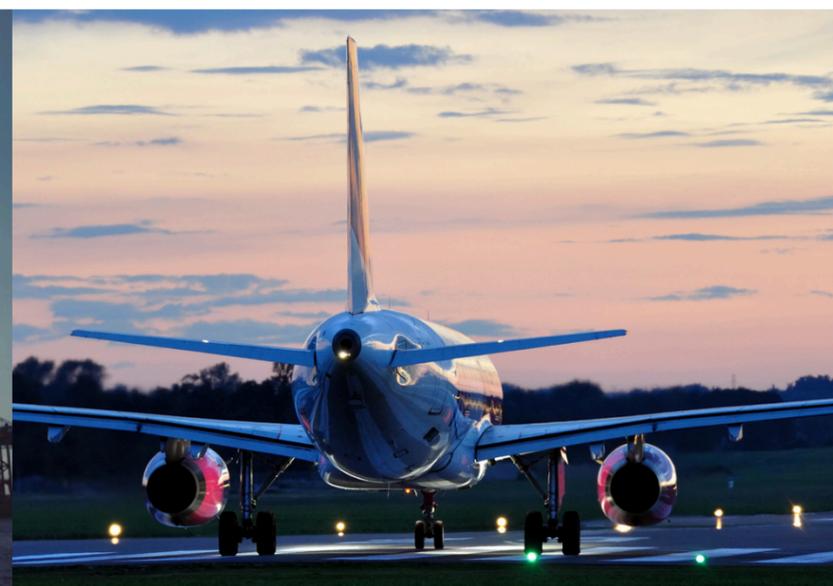

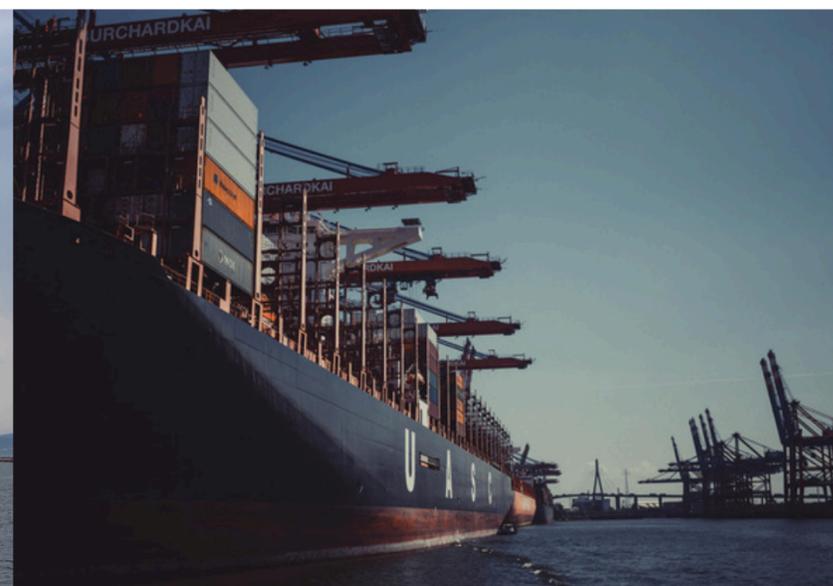

- **Full Container Load (FCL/LCL)**
- **Groupage**
- **Storage and handling**
- **Customs services**
- **Real-time tracking**

Furthermore, we offer air transport services ranging from general cargo to perishable and temperature-controlled products, as well as dangerous goods, covering both import and export as well as triangular operations.

Furthermore, thanks to our certification as IATA agents, our air transport covers more than 190 countries spread across the 5 continents. These are some of our other additional services:

- **Urgent transport**
- **Temperature controlled transport**
- **Handling of dangerous cargo (IMO)**
- **Special services (charter, hand courier, etc.)**
- **Load conditioning**

Committed to Quality

Strategic lines

- **Maximum customer satisfaction** by meeting their expectations.
- **Support for our workers**, through decent work, and communication. As well as continuous training and the talent boost.
- **Commitment to the environment** and prevention of pollution.
- **Commitment to suppliers** through conditions appropriate to the market in the service they provide us.
- **Continuous improvement** of processes and services.
- **Proactive attitude** towards the safety, integrity and safety of the goods.
- Application of **corporate social responsibility** in the environment.
- **Compliance with current legislation and standards established.**
- **Ensure the application of ethical** principles in the hiring of clients and suppliers.
- **Promoting an anti-corruption attitude:** transparency, confidentiality and surveillance.
